EDUCATION

UNIVERSITY OF OKARA

BS IN SOFTWARE ENGINEERING

Aug 2020 - Present | Okara, PK

CGPA: 3.24 / 4.0

COURSEWORK

UNDERGRADUATE

- Object Oriented Programming
- Operating Systems
- Databases
- Networking
- Software Design & Architecture
- Information Security

SKILLS

PROGRAMMING

WEB :

React.js • Next.js • Javascript
Typescript • Node.js • Express.js
Mongodb • Redux Toolkit • Zustand
Tailwind • CSS • Shadcn UI
Material UI • Chakra UI • Prisma ORM

FAMILIAR:

React Native • Unity • C++ • C

OPERATING SYSTEMS

Windows • MacOS

INTERESTS

- **WEB APP INNOVATION:**
Exploring new features and design patterns for user-friendly web apps.
- **HEALTH AND FITNESS:**
Dedication to a healthy lifestyle through exercise and outdoor activities.
- **ONLINE EXPLORATION:**
Curious about diverse content, from tech forums to educational videos, for inspiration.

LANGUAGES

PROFICIENCY

- **English:** CONVERSATIONAL
- **Urdu:** NATIVE

PROJECTS / OPEN-SOURCE

STORESYNC 🍷 | REACT JS / NEXT JS / MYSQL WITH PRISMA

- I spearheaded the development of a robust and dynamic Ecommerce Content Management System (CMS) leveraging cutting-edge technologies to optimize performance, user experience, and scalability. Harnessing the power of Next.js, Prisma, and MySQL, I crafted a seamless backend infrastructure ensuring efficient data handling, management, and retrieval
- Implemented Next.js for server-side rendering, providing enhanced performance and SEO optimization and authentication using clerk
- Engineered a robust MySQL database with Prisma to schema tailored to the specific requirements of the Ecommerce CMS.
- Leveraged Tailwind CSS and Integrated Shadcn UI components for a responsive and scalable UI, facilitating rapid design

POINT OF SALE APP 🍷 | REACT JS / NEXT JS / MYSQL WITH PRISMA

- I led the development of a sophisticated Point of Sale (POS) web application using Next.js as the foundation, integrating Prisma with MySQL for a robust and secure backend infrastructure.
- its a complete production ready app that i delieverd to my client for his business
- complete authentication using Next-Auth with ability to update profile including name passowrd profile image
- Utilized Next.js for high-performance, responsive POS application design. Integrated Prisma ORM with MySQL for streamlined real-time transaction handling.

DISCORD CLONE 🍷 | REACT JS / NEXT JS / MYSQL / TYPESCRIPT

- I spearheaded the development of a Discord-inspired application using Next.js, Prisma, and MySQL, fortifying the backend to ensure seamless real-time communication and scalable data management. This framework laid the foundation for a robust and agile platform
- Implemented Zustand for meticulous state management, orchestrating a harmonious synergy across application components. This meticulous approach maintained consistent and reliable states, delivering a fluid and immersive user experience.

SOCIAL MEDIA APP LIKE INSTAGRAM 🍷 | REACT JS / NODE JS / EXPRESS / MONGODB

- Leveraged React.js, Node.js, Express, Mongodb and Clean Architecture principles to develop a visually captivating social media Application, resulting in an polished user interface for accessing other people.
- This platform mirrors Instagram's essence, enabling users to effortlessly share captivating visual narratives. From uploading and captioning images to fostering interactive engagements through likes, comments, and user interactions, the application offers a cohesive and immersive experience.
